

BR5100 REVERSIBLE PLATE COMPACTOR

OVER 11,000 LBS OF COMPACTION

To tackle your most demanding applications

The BR5100 is the largest reversible plate compactor in Bartell Global's fleet, offering high compaction force and travel speeds to help you accomplish your jobs quickly and effectively.

- Fully hydraulic reversing mechanism with flexible maneuverability allows the machine for forward, backward, and spot-on compaction
- Cast aluminum throttle lever for a more professional, stronger, and durable for tamping
- Full roll cage and built in lifting bale for increased engine and guide hook protection
- Cast aluminum belt cover for increased clutch and engine longevity
- Ductile iron bases for increased strength
- Wheels that attach and flip down for easy transportation
- Optional extension plates and urethane mat options available
- Full speed in both forwards and reverse
- Specialized for compacting sand, trench, and patching
- Key start or recoil start
